11 March 2021

Dear Parents/Guardian

Category A Elective Modules

Category A Elective Modules (EM) have been introduced by ITE to Normal (Technical) and Normal (Academic) students to broaden their learning experiences as well as to cater for their varied learning needs and styles.

The Elective Modules are designed to achieve various objectives. They include:

- extension of what is learnt in current N(A) & N(T) subjects
- introduction to varied courses of study in ITE/Polytechnics
- exposure to possible career paths

We believe these modules will enable your child/ward to make informed choices when pursuing further studies or deciding on a career path. They also allow your child/ward to pursue areas of interest that take your child/ward beyond the curriculum.

In Term 2, your child/ward will be attending the Category A Elective Modules. Your child/ward had already indicated his/her choice for one of the EMs and the duration of the EMs is as follows:

Module	Location	Date	Duration	Remarks
Retail Sales	ITE College Central	29 March – 01 April 2021	8.30am - 5.00pm	2 Way Transport provided
Interior Design Ideas				
Creating a Computer Game				
Video Production				
Building Models with 3D Printers				
Design and Build your Own Glider				

We hope that the 4-day exposure will help your child/ward to understand the possible pathways available.

Please feel free to contact Mr. Alvin Hoo, AYH/Sec 3 at hoo_yin_hong_alvin@moe.edu.sg if you require any information or clarification.

Thank you and warmest regards

Mrs Regina Lee
Principal
